He is a frontline climate justice activist and community organizer who has been a leading voice among youth activists since he was 10 years old. He was diagnosed with respiratory and heart issues from an early age due to the poor air quality of his community in Los Angeles, California, which served as the catalyst for his climate activism.

The secret's out!

We're so happy to welcome 25-year-old climate activist Vanessa Nakate as a UNICEF Goodwill Ambassador.

Vanessa Nakate began her activism in January 2019 in a protest with her siblings and cousins on the streets of Kampala in Uganda, inspired by Greta Thunberg. She continued to protest every week, becoming a well-known face in a movement of young people "striking" for the climate around the world.
