

MUNICIPIO DE ANGRA DO HEROÍSMO
Câmara Municipal de Angra do Heroísmo

Angra do Heroísmo, May 25th

As the world strives for a more sustainable future, it is crucial for everyone, including the new generations, to act and contribute to the preservation of our planet.

Students play a vital role in driving change and creating a sustainable world. By adopting environmentally friendly habits and making conscious choices, they can make a significant impact. Whether it's reducing waste, conserving energy and water, promoting recycling, using eco-friendly transportation, or advocating for sustainable practices within their communities, students have the power to inspire and initiate positive change.

The 19th Sustainability Summit is an excellent platform for exchanging experiences and knowledge. It provides an opportunity for communities to come together, learn from each other's successes and challenges, and collaborate on effective strategies for building a more sustainable future. Such gatherings foster innovation, encourage dialogue, and empower individuals and organizations to make informed choices that align with sustainable principles.

By supporting events like the Sustainability Summit and promoting its objectives, we contribute to the broader mission of creating a more sustainable world. Through knowledge sharing, networking, and collective action, we can achieve meaningful progress and create a brighter future for generations to come.

Unfortunately unable to attend, from the Azores I share your wishes for the success of the meeting, and may it inspire and empower participants to take meaningful action towards a sustainable and thriving planet.

José Gabriel do Álamo de Meneses
Mayor
