

# The Stone Soup Leadership Institute

From DEI, SEL & Service Learning to  
Climate Education & Sustainable Career Pathways

# The Challenge: A Call to Action

The climate crisis raging around the world challenges each of us to do whatever we can to help our children, our communities, and the planet.

**Why is it not being taught in our schools?**

As educators we have an opportunity to respond in a thoughtful, empathetic, action-oriented way. Innovation through education is the key to building a sustainable workforce and world.

Imagine what millions of new jobs in the green economy could mean for our communities and for our world. We must invest in climate education and sustainable workforce development now!

**Breaking News**

ENVIRONMENT NEWSWIRE

- 70% school curriculum doesn't address climate education
- 66% of teachers lack of expertise or training
- 51%: lack of climate education resources

STONE SOUP Leadership Institute

# Teaching the Solution

**The Stone Soup Climate Education Platform** synthesizes the Institute's 28 years of developing educational tools, training and programs with schools, organizations, and communities around the world, including:

- **Educational Tools:** Heart-centered true stories, values-based, action-oriented lesson plans.
- **Inspiring** YouTube Educational Channel
- **Engaging** Social Media Content
- **Innovative Courses:** Leadership, Career Mentor, Sustainability
- **Teacher Training** (PD) Modules + CEUs
- **User-Friendly** Printable Documents
- **Assessment Tools:** Performance Metrics & Sustainability Surveys

# Invitation to Strategic Partners

We're seeking strategic partners to build out and scale the  
**Stone Soup Climate Education Platform.**

Developed in partnership with young people;  
Tested & vetted with educators in U.S. & E.U. communities.

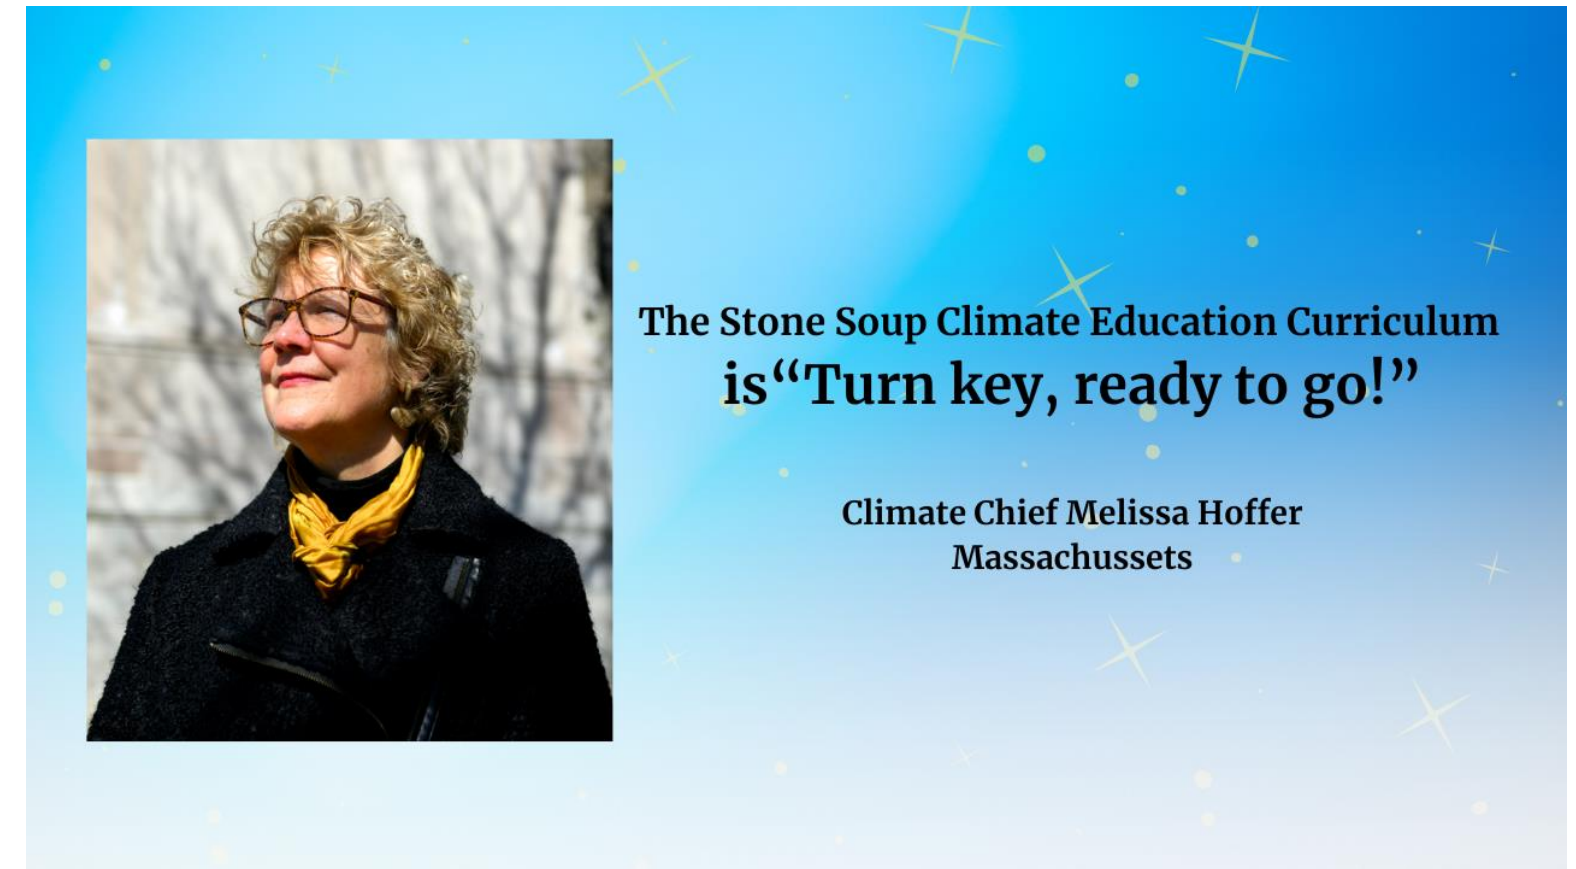

**We invite you to join us!**

We want to make this dynamic user-friendly program  
**FREE to ALL educators to empower ALL students**  
to help build a sustainable world.

Full proposal & budget upon request.

*“The planet needs all of us.”*

Marianne Larned, Author, Founding Director

Teachers of all content areas can benefit from these tools and trainings. You can tie sustainability into all subjects, not just science. You can build literacy by reading these real-life stories from 38 countries. You can design a civics project by building on a story's Call to Action.

Diana Hopkins, Biology Teacher, Massachusetts
