

August 7, 2024

Dear Education & Community Leaders:

You're invited to nominate High School Teachers to the Stone Soup Leadership Institute's Climate Education Teacher Training. In partnership with Salem State University's Geography and Sustainability Department, the training is in conjunction with MASS STEM Week on Saturday, October 19, 2024 • 10 am -3 pm.

- Open to all high school teachers – across all disciplines - culturally, racially, linguistically diverse welcomed.
- Space is limited. Nomination Deadline: August 30, 2024. Location: Salem State University.

- In this FREE Training, teachers will receive a book, curriculum and receive PDP credits.
- Teachers will inspire their students with 100 real-life stories of young people from 38 countries in *Stone Soup for a Sustainable World: Life-Changing Stories of Young Heroes* from green entrepreneurs, environmental justice champions, changemakers, philanthropists with solutions for a sustainable future.

- *Stone Soup Climate Education Curriculum*: 100 easy-to-use lesson plans: consistent & adaptable.
 - Language Arts & STEM activities
 - Sustainability innovations and resources.
 - Sustainable Career Pathways to green jobs.

- Fulfills MA Standards; aligned with Next Gen STEM Standards & UN's Sustainable Development Goals.
- The Institute's Teacher Trainer guides them to create customized lesson plans for their classroom: [video](#)
- Teachers will access dynamic video-based educational resources and tools: YouTube Safe for Kids:
- Teachers will engage with their community to create project-based learning opportunities for their students.
- Opportunity to join ongoing cohort: Stone Soup Climate Education Platform: [Play video](#)

- Send your nominated teacher with contact information: SalemStateUPD@stonesoupleadership.org

The climate crisis challenges each of us to do whatever we can to help our children, our communities, and the planet. As educators, we have an opportunity to respond in a thoughtful, empathic, action-oriented way.

About the Stone Soup Leadership Institute

Founded on Martha's Vineyard in 1997, the Institute has worked with students and high school teachers in a variety of disciplines in Massachusetts – and around the world. The Institute's [Case Studies](#) spotlights how the Stone Soup Model – with our educational tools and trainings – serve as a roadmap: when we all work together, we can build a more sustainable world.

We believe it is imperative that our teachers are given the tools they need to effectively teach climate and sustainability to the next generation of climate leaders in an engaging way. At a time when teachers need climate education, training, and workforce development, the Institute is launching the *Stone Soup Climate Education Platform*, so educators worldwide will have FREE access to our educational tools and trainings. Developed in

partnership with young people; tested & vetted with educators in U.S. & E.U. communities, it is the only comprehensive platform dedicated to climate education and sustainable career pathways.
